Chaitanya Bharathi Institute of Technology, Hyderabad
saibhavaniyedla | Sai Bhavani Yedla

Profile

I am currently pursuing B.E. CSE (Artificial Intelligence and Machine Learning) at CBIT with skills in Python, SQL, HTML, CSS, Java, C, C++ and Machine Learning. I have built web-based and ML projects. I actively participated in hackathons, including developing innovative solutions. I am seeking opportunities to apply my skills in software development or AI/ML roles and contribute to real-world problem-solving. I enjoy building simple web projects to strengthen my technical skills. My long-term goal is to work as a Security Analyst or in a cybersecurity/software role where I can contribute meaningfully and grow from every experience, including failures.

Education

•Chaitanya Bharathi Institute of Technology, Hyderabad — *2028 (Expected)*
Bachelor of Engineering – CSE (AI & ML) — CGPA: 9.69 / 10

•Smt. Durgabai Deshmukh Women's Technical Training Institute, Hyderabad — *2025*
Diploma in Computer Science and Engineering — CGPA: 9.95 / 10

•Board of Secondary Education — *2022*
Secondary School Certificate (SSC) — CGPA: 10 / 10

Technical Projects

•ChatBot – AI Customer Support
FutureInterns Project — Dec 2025
– Technologies: DialogFlow, Web Integration.
– Built a smart chatbot project to handle real-time customer support queries.
– Designed the chatbot to understand user questions and provide useful responses.
– Improved understanding of chatbot workflow, AI-based responses, and customer support automation.
– GitHub: ChatBot

•Z-Umbra – Privacy Protocol on Avalanche
Hackathon Project — Aug 2025
– Technologies: Solidity, JavaScript
– Designed a privacy-preserving transaction layer on Avalanche.
– Used cryptographic techniques for confidential transfers.
– GitHub: Z-Umbra

•Fruit Ripeness Prediction System using Sensors and ML
Academic Project — Apr 2025
– Technologies: HTML, CSS, Python, Machine Learning, SQL
– Built a system to predict natural vs chemical fruit ripening using sensor data.
– Applied machine learning concepts to solve a real-world problem.
– GitHub: Fruit Ripeness Prediction

Technical Skills and Interests

Languages: HTML, CSS, Python, Java, C, C++
Developer Tools: VS Code, Google Colab, Github
Cloud/Databases: MySQL, AWS Basics
Coursework: Data Structures, DBMS, Machine Learning
Soft Skills: Teamwork, Communication, Time Management
Areas of Interest: Web Development, Artificial Intelligence, Machine Learning

Positions of Responsibility

•Project Team Member –Contributed to academic and technical projects — *2025*
•Hackathon Participant –Participated in technical competitions and innovation-based events — *2025*
•Volunteer –Chaitanya Spandana — *2025–2026*

Achievements

•Special Mention Award – Avalanche Hackathon (Z-Umbra) — *Aug 2025*
•Participant – GDG Agentic AI Hackathon, Guinness World Record event — *2025*
•Certificate of Merit –Secured 9.95 CGPA in Diploma — *2025*

Certifications & Awards

•AWS Certified Cloud Practitioner –Learned AWS cloud basics, services, security, and pricing concepts. — *Issued Apr 2026*
•Salesforce Agentforce Specialist –Salesforce Certification — *2025*
•GDG Agentic AI Hackathon Certificate –Participation Certificate — *2025*
